

ELECTRICITY  
ASSOCIATION  
OF IRELAND

**Job Opening: Policy Analyst**

**Closing Date: 6pm Friday 22nd of October 2021**

### About the role

This is a graduate Policy Analyst role in a trade association that promotes the role of electricity in meeting the global challenges of decarbonisation and electrification. You will learn how the electricity and gas markets operate while developing your knowledge across the electricity supply chain. You will work for an industry at the forefront of tackling climate change through clean energy developments and electrification.

In this role you will:

- Support the development of policy on electrification, effective energy markets and transparent regulation in the decarbonisation of our economy.
- Provide analytical expertise and support to the CEO and Senior Policy Advisor, members and the sector in general on key current and future policy issues.
- Engage with our stakeholders in an authoritative, evidence-based, constructive manner on the issues that are relevant to our members.
- Enhance the organisation's reputation through structured research and analysis of developments in the energy sector, related policy and markets.
- Communicate the work of EAI through twice monthly industry newsletters, quarterly insight events and via our website.
- Support the membership in their engagement with EAI and Eurelectric Committees and Working Groups.
- Deliver an efficient and quality service to members.

A decarbonised future powered by electricity

Electricity Association of Ireland 127 Baggot St Lower, Dublin 2, Ireland D02 F634

## About EAI

EAI is the representative body for the electricity industry and gas retail sector operating within the Single Electricity Market (SEM) on the island of Ireland. We are an all-island organisation that provides a source of expert advice on industry matters.

Our ambition is to contribute to the realisation of a net zero economy by 2050. Electricity has a fundamental role in providing energy services in a decarbonised, sustainable future, in particular through the progressive electrification of transport and heating. We believe this can be achieved, in the overall interest of society, through competitive markets that foster investment and innovation.

Learn more about EAI and our members on our [website](#).

## What we are looking for

To be considered for this role we would love you to have:

- Demonstrated interest in the energy sector.
- Degree level education in a STEM, Economics, Business or Public Policy discipline.
- Strong research, analytical, organisational, and time-keeping skills.
- Good interpersonal and communication skills to work collaboratively with a wide range of internal and external stakeholders.
- Ability to work to operational deadlines.
- Excellent written and spoken communication skills in English.
- Experience with MS Office.
- Previous energy market experience would be useful but not essential.

## What we offer

- Salary: €30,000 + performance related bonus of up to 15% of annual salary.
- 3-year full-time contract.
- 25 days annual leave plus national holidays.
- Flexibility to work out of office in Dublin 2 or remotely.

- Opportunity to advance your professional development in areas you would like to develop expertise by enrolling in educational courses, e.g., energy regulation courses, electricity market courses.

### Next Steps

Please send your CV and a brief cover letter to [info@eaireland.com](mailto:info@eaireland.com) by **6pm Friday 22<sup>nd</sup> October**. Applications will be considered on a rolling basis. We will be in touch after the closing date to inform you of the outcome of your application.
